

Susan Audrain

For

Tredyffrin-Easttown School District, Region III School Board Director

I am running for Tredyffrin-Easttown School District, Region III School Board Director because I want to serve the TESD students and the community and to ensure continued educational excellence for all TESD students. I want to use my administrative and problem-solving skills honed by extensive experience as a hospital department administrator, a critical care nurse and chair of nursing quality improvement committees. Responsibilities included developing and managing multimillion-dollar budgets, evaluating problems, identifying root causes, and developing action plans, policies, and procedures to resolve issues.

As School Board Director, I commit to:

- Listen respectfully to all stakeholders to address their concerns.
- Support a comprehensive, multifaceted evaluation of students post COVID and support plans for academic, emotional, or social support as needed.
- Inform the community of unfunded/underfunded state mandates which negatively impact the students and taxpayers of TESD.
- Maximize taxpayer dollars by critically evaluating data and cost-effective alternatives.

Education: The University of South Florida, Bachelor of Science in Nursing, 2000
